**CERTIFICATE OF ELECTRONIC FILING**

I hereby certify that this correspondence is being deposited with the United States Patent & Trademark Office via Electronic Filing through the United States Patent and Trademark Office e-business website, on May 22, 2008.

Dated: May 22, 2008

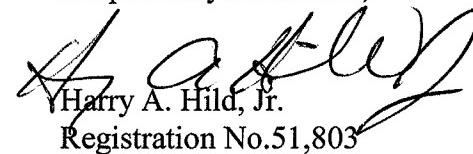

Harry A. Hild Jr.

New claim 40, which has been submitted in the 1.116 response, was considered and discussed. It was agreed that new Claim 40 overcame all of the previous §112 rejections. It was also noted by Marianne Padgett that a determination of whether the newly claimed ranges were supported by the specification had not been completed at the time of the interview. It was also noted that new Claim 40 contained the term “Hf-containing solution”, which should be “HF-containing solution”. It was further indicated that an amendment to dependent Claim 4 may be considered to further limit the scope of new Claim 40 to n-type dopants.

In the event, the Examiner would like to issue a notice of allowance, Applicants' respectfully request that Examiner contact the undersigned attorney so that a supplemental amendment can be prepared to alleviate any existing deficiencies in Claims 4 and 40.

Respectfully Submitted,

Harry A. Hild, Jr.
